LAPLAND BINGO MANUAL

Lapland Bingo

Lapland Bingo is a fun-filled, edge-of-your-seat event where everyone will be hoping to complete a line, or even better, score a full house! Alongside the classic bingo numbers, expect plenty of festive surprises and Christmas-themed challenges to keep the excitement going throughout the game.

Rules

- Give each player a bingo card
- The caller calls out numbers which have been randomly selected.
- Players mark off a number when it appears on their card.
- Players need to complete one line and then a full house.
- When the player shouts either “And a partridge in a pear tree!” or “HO HO HO!” their card is checked against the numbers called. If correct they win.

Equipment

- Bingo Cards
- Bingo Balls
- Bingo Box
- Number Cut Outs
- Pens
- Stocking
- Prizes

Role of the Bingo Caller

It is the Bingo caller's responsibility to inform the players of the rules before the game begins.

The Caller needs to use the script below: (This can be printed and read from a cue card)

Good evening everyone and welcome to Lapland Bingo!

Tonight, we're sleighing the competition with two chances to win, so keep your eyes on your card and don't get your tinsel in a tangle!

First up, we're playing for a Line. To win, you need to mark off all the numbers in one complete horizontal row on your bingo card. Now, because we're in Lapland, a simple shout of "Line!" just won't cut the Christmas pudding. If you've completed a line, you must clearly call out and sing "AND A PARTRIDGE IN A PEAR TREE!"

One of our festive helpers will then come over to check your card. If your claim is correct, you'll be our Line winner and receive a prize from the Stocking. If not, you may have ended up on the naughty list!

But don't dash through the snow just yet, because we'll then continue playing for the grand prize... THE FULL HOUSE!

Bingo Caller Script Continue:

To win the Full House, every number on your bingo card must be marked off. When that happens, don't keep it under wraps like a Christmas present. We need to hear a loud and proud "HO HO HO!"

Again, someone will check your card, and if every number has been called, you'll officially have Christmas all wrapped up as our Full House winner!

A few final reminders before we get the snow rolling:

- Listen carefully, because numbers can disappear quicker than mince pies in Santa's workshop.***
- Make your claim nice and loud. Rudolph's ears aren't what they used to be.***
- At any moment during the game, we may be interrupted by a very special sound... (Sting music plays). When you hear that festive alarm, don't panic, don't abandon your bingo cards, and definitely don't send Rudolph out on an emergency landing!***

It simply means it's time for one of our special Christmas challenges.

You never know when they'll appear, so stay alert, keep your ears perkier than an elf on Christmas Eve, and be ready for a little extra festive fun along the way.

So if we're ready.. Eyes down, Christmas spirits up, and let's play Lapland Bingo!

Throughout Lapland Bingo, surprise challenges will be triggered by a special sound effect (sting), adding extra energy and festive fun to the experience.

These challenges can be played at any point during the event, with a minimum of three challenges taking place during each game of Lapland Bingo.

Christmas Conga

When the music starts, it's time to get moving! Everyone in the venue is encouraged to join the festive conga line and keep it going until the song comes to an end.

Christmas Sing-Along

A classic Christmas favourite will fill the room, and guests are encouraged to sing along as loudly and proudly as they can. Hosts can get the audience involved by spotlighting some enthusiastic singers over the microphone.

Name That Tune

Can you recognise a Christmas classic from just a few notes? Short snippets of festive songs will be played, and the audience must guess the title before the next tune begins.

Christmas Charades

Team members race against the clock to act out as many festive-themed charades as possible while the audience guesses the answers.

Examples include:

- Turkey
- Christmas Angel
- Christmas Cracker
- Santa Claus
- Two Turtle Doves

Pass the Stocking

A festive twist on the classic game of Pass the Parcel! A stocking filled with wrapped **Lapland Bingo prizes** is passed around the audience while the music plays. When the music stops, the guest holding the stocking gets to unwrap and claim one of the hidden prizes. The game continues until the music comes to an end.
